PROFILE

As an MSc AI/ML graduate from the University of Technology, Mauritius, with two years of full-stack development experience, I develop modern web applications and integrate artificial intelligence solutions (MCP, AI models).

I am now open to new opportunities where I can design intelligent systems combining web technologies, data, and automation to address real-world business challenges.

EDUCATION

UNIVERSITY OF TECHNOLOGY, MAURITIUS

April 2025 – October 2026

Msc Artificial Intelligence with Machine Learning

**ECOLE SUPERIEURE DE TECHNOLOGIE ET DE
L'INFORMATION**

March 2020 – April 2024

Bachelor's Degree in Integration and Development

SKILLS

- **AI ENGINEERING:** (LLM, RAG, NLP, MCP)
- **MACHINE LEARNING:** (Supervised, Unsupervised, RL)
- **LANGUAGES:** (Java EE, Spring Boot, Python)
- **WEB:** (Angular, AngularJS, React, Express)
- **CLOUD AND DEVOPS:** (Azure, Docker)
- **DATABASE:** (SQL, PostgreSQL, MongoDB)
- **ERP, CRM, CMS:** (Business Central, Odoo, WordPress)
- **AUTOMATION:** (n8n, ElevenLabs, Twilio)

PROJETS

* **Agent AI Call** : This project aims to use AI as a receptionist to schedule appointments. (n8n + ElevenLabs)

EXPERIENCES

FULL STACK DEVELOPER / AI SPECIALIST

Chemtech group

April 2026-

I manage the integration of AI solutions and business automation systems while designing and developing custom software applications tailored to business needs. Additionally, I optimize workflows by implementing innovative AI-driven technologies and digital solutions.

**FULL STACK DEVELOPER / AI SPECIALIST (INTEGRATION AND
AUTOMATION)**

NSC

January 2026 - April 2026

I work on integrating AI solutions into web applications via MCP and AI models, while also supporting the design and development of web applications with Angular, React and Express.

FULL STACK DEVELOPER (ALTERNANCE)

Bred Banque Madagasikara BP (ancien BFV-SG)

April 2024 – March 2025

I carried out the drafting of the specifications, the technical design and the development of digital solutions, with a Front-End in Angular and a Back-End in Spring Boot, for the banking sector.
